Heber Hospital Accounting

Bookkeeping and accounting in Heber Hospital, under Dr Bert Dannenberg was first done by the Doctor. He then hired Alfred Sharp to keep the books.

Mr. Sharp had been bookkeeper at the County Court House & was known to be honest and accurate county clerk all his life.

This bookkeeping job at the newly organized hospital certainly demanded accuracy and honesty.

It is estimated by this writer, that Mr. Alfred Sharp worked for about 10 years; between 1923 and 1933 for Drs Bert & T.A. Dannenberg.

The next bookkeeper was Leora Ohlwiler Lindsay. She kept the books and made purchases for supplies and started the insurance collections as the third party payor came on the scene.

Her tenure was 1933 to about 1941.

Leora's husband had helped her in about 1940 to '41 and took over the job about 1941, after completing a tenure with the Wasatch County Sheriff's Dept as one of its deputies.

He continued from 1941 to May 1969 when the Heber Hospital closed down its Hospital operations but continued on as a Dr's offices & clinic with Drs. Jack Boggess & Ross Jensen.

Bert had served many different Doctors: i.e. Karl O Nielsen, Wright, Aubrey Gould, Willard J. Draper, L Raymond Green & Fred J. Bushnell.

The new hospital, called the Wasatch County Hospital, began its service on ___ May 1969.

(See another whole book on this hospital.)
